Build the Change: Scratch Sharing Sheet

Your name: _____   **Project title:** _____

Was there a building or space in your community that you were inspired to redesign? If so: ● **What did you change from the original design to make it more accessible for all?** ● **How did you make it more energy efficient?** ● **How is it more nature friendly and less harmful to the environment?** **Or is this a new building or space you'd want to create in your community?**	
What did you like about creating this project? How were you able to enhance your project by bringing it into Scratch?	
What challenges came up for you? How did you get unstuck when you faced challenges?	

If I had two more days, I would add…	
What is something you are looking for feedback on?	

Peer Feedback

Red: What is something that does not work or could be improved?	Yellow: What is something that is confusing or could be done differently?	Green: What is something that works well or you really like about the project?
